Selected Topics and Celestial Objects

This listing is not intended to be exhaustive and does not supplant the other parts of the index. For example, material in such regular features as Books & Beyond is ordinarily indexed only under the Departments and Features section.

Amateur activities: amateur-professional collaborations in research, *5:8*; Association of Lunar and Planetary Observers' 50th anniversary, *6:109*; Astronomical League's 50th anniversary, *5:102*; Astronomy Day 1996, *4:99*; Congress of Central American Amateur Astronomers, *4:100*; Connecticut Star Party, *1:114*; Grand Canyon Star Party, *1:110*; Hubble Space Telescope observing program ends, *6:97*; importance of Mars observations, *5:6*; in Japan, *3:104*; Mason-Dixon Star Party, *1:110*; Mount Kobau Star Party, *1:111*; Nebraska Star Party, *1:113*; observing from Mount Evans, Colorado, *4:108*; Okie-Tex Star Party, *1:115*; Project Mundus, *2:96*; survey of amateur equipment, *2:8*; Table Mountain Star Party, *1:112*; Tainai Star Party, *3:107*; Texas Star Party and West Texas Star Party, *3:13*
Asteroids (minor planets): 6318 Cronkite, *4:22*; explaining gaps in asteroid belt, *6:18*; occultation results, *2:75*
Astronomical constants: Hubble parameter, *3:20*
Astronomy and society: astronomical misinformation on the Internet, *3:97*; *4:10*; public panic about comets, *5:50*; "selling" stars, *3:8*; *Sky at Night* TV show 40th anniversary, *5:106*
Atlases and catalogs: errors in 1997 *Astronomical Almanac*, *4:9*; errors in star and deep-sky catalogs, *4:91*; NGC/IC Project, *4:94*; *Principal Galaxy Catalogue*, *4:93*
Atmospheric phenomena: green flash, *5:111*; parhelia (sundogs), *1:103*; *5:8*
Bioastronomy: extraterrestrial threat? *2:6*; *5:10*

FOCUS ON

Cahall Observatory — Thayer Academy
Braintree, Massachusetts

This observatory houses a 16" Celestron telescope. Thayer Academy's Earth Sciences, Physics & Astronomy classes use this building as a learning tool to stimulate an interest in Science. The building designed by Jeremiah Eck Architects combines function and visual appeal to provide a welcome addition to the Academy buildings and grounds.

ASH MANUFACTURING COMPANY
P.O. Box 312
Plainfield, IL, USA 60544
815-436-9403
FAX 815-436-1032

Ash-Dome is recognized internationally by major astronomical groups, amateurs, universities, colleges, and secondary and primary schools for its performance, durability, and dependability. Manual or electrically operated units in sizes from 8 to 30 feet in diameter available. Brochures and specifications upon request.

Takahashi

The Quality Choice Handmade Telescopes

CN-212 Newtonian-Cassegrain

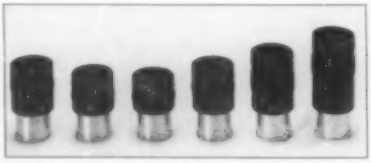
Three Telescopes in One:

- An f/12.4 Cassegrain
- An f/3.9 Newtonian
- A corrected f/3.9 Astrograph perfect for photo, visual, and CCD use
- Changes in minutes from a Cassegrain to a Newtonian while maintaining perfect collimation

FS-102 Fluorite APO Refractor

- Second-generation fluorite, ED objective
- Hard multicoated on all surfaces
- Large 2.7" focuser
- Eight knife-edge baffles for high-contrast, ultra-sharp images
- Dedicated reducer for outstanding deep-sky photos with 35mm or medium-format cameras

Available on a variety of highly portable, accurate state-of-the-art mounts.
The perfect portable telescopes for viewing or photographing comets.



Takahashi LE Oculars, The Choice of Advanced Observers

- Long eye relief
- Parfocal, hard multicoated
- LE-5 & 7.5 use ED glass for superior contrast
- Available in focal lengths of 5mm to the 2" LE-50
